

Tetrabutylammonium Bromide (TBAB)

Brand: U990/U500

Molecular Weight: C₁₆H₃₆BrN

Molecular Weight: 322.37

CAS. No.: 1643-19-2

Application

1. Medical intermediate.
2. Phase transfer catalyst.
3. Ion-pairing agent.

Typical Property

U990

Appearance	White flake or granular crystal
Content (%)	99
Free amine (%)	0.09

U500

Appearance	Colorless clear liquid
Content (%)	51.3
Free amine (%)	0.09

Package:

U990: 25/kg/bag, kraft bag(containing lining bag) or fiber drum or as per customer's request.

U500: 200kg/drum, big drum or as per customer's request.
